## Description

Flea Market is a module that allows customers to sell goods bought from your e-store. Combination of two facts: customer made purchase in your e-store and now wishes to sell the item which doesn't fit him/her properly is a necessary prerequisite for using this module.

See a detailed description of how the said module can benefit your business here: Flea Market (module description).

## How to buy "Flea Market" module

"Flea Market" module is sold separately and is not included in any version of OT Box. It is an add-on which is intended to increase customer loyalty.

Contact OT manager in your Skype chat to purchase this module and follow further instructions given.

Besides, manager will answer your questions on module and methods of payment.

## What items can be added?

Only items from completed (i.e. paid and received) orders are allowed to be sold. User can put an item up for sale in his/her Personal area (on the "Completed orders" tab of the "Orders" section).
