

Bottom Navigation

- [Description](#)
- [Menu Options](#)
 - [Add](#)
 - [Delete](#)
 - [Reorder](#)

This is where one can choose which pages he or she wants to appear on the website's bottom menu.

Go to Content > Navigation > Bottom Navigation **in the admin area.**

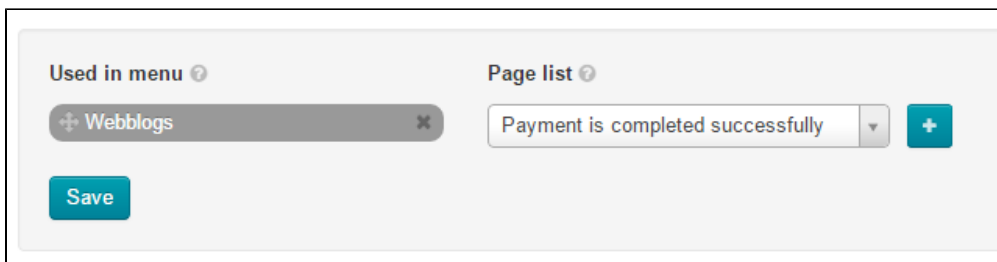

Description

Here you can customize your site's bottom navigation menu.

It allows you to choose pages to be displayed in the menu as well as to set the order the pages appear in.

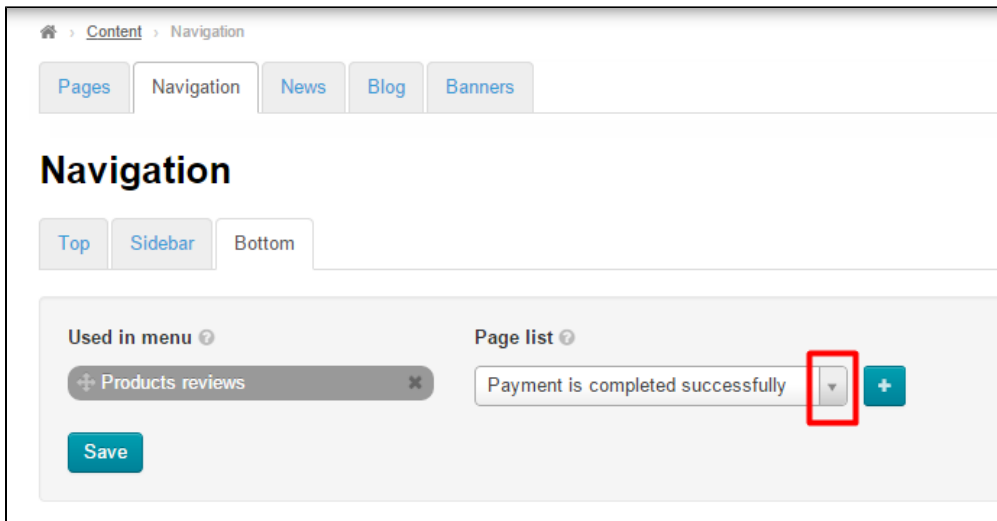

Menu Options

All actions are performed within the following area:

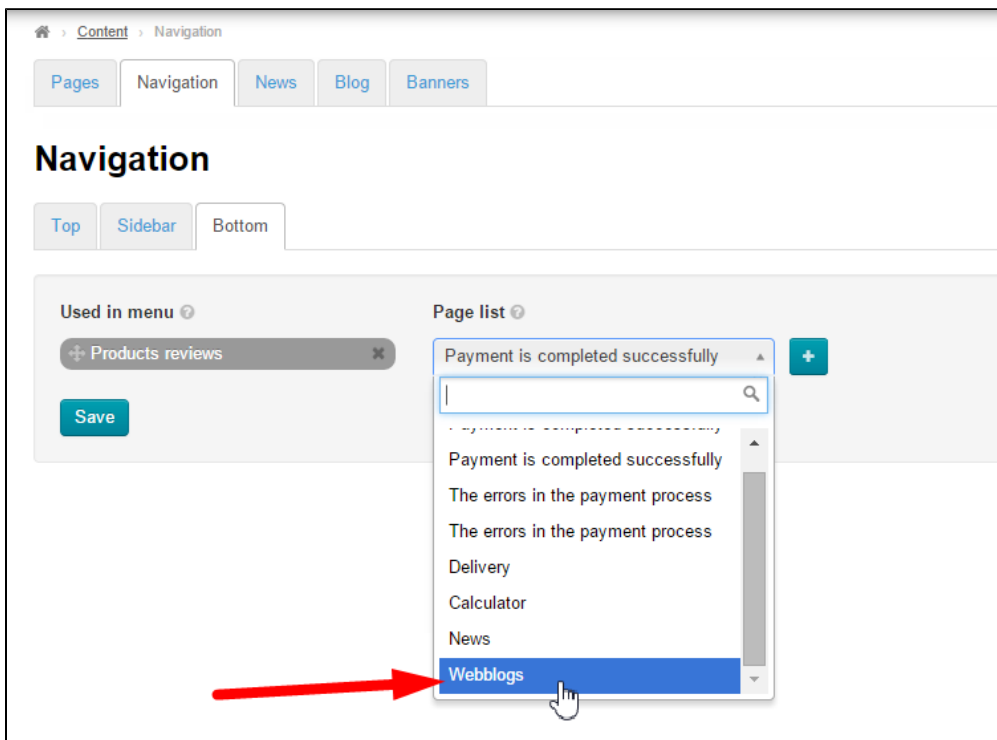

Add

To add a page to the menu you should click on the down arrow next to the page names in the right-hand column.

Then you will see a list of pages. Click on the desired page.

Click the Add button (the plus sign) to add the selected page to the menu.

Upon saving the added page changes to grey in the admin area whereas the new item appears on the website.

Delete

 A page isn't deleted permanently. It won't be shown in the menu bar and can be recovered anytime.

To delete a page from the menu you need to select it from the list on the left.
