

# Settings

The screenshot shows the 'Website configuration' section of the OT Commerce Shop interface. At the top, there's a navigation bar with links for 'Support (0 / 0)', 'Help', 'Settings' (which is highlighted with a red box), 'SuperAdmin', and language selection ('en'). Below the navigation is a breadcrumb trail: 'Configuration > Website configuration'. The main content area has tabs for 'Website configuration', 'Orders', 'Delivery', 'Languages', 'Instance configuration', 'Letters templates', and 'System'. On the left, there's a sidebar with sections for 'Global website template', 'Website header' (containing fields for 'Logo', 'Website title', 'Phone', 'We're open', 'Online support block', and 'Online support'), and 'Control design'. The right side contains 'Text page settings' (with options for 'Column navigation', 'Custom code for the head section', and 'Custom html code at end of body') and a 'Background image' section. A button 'All languages versions' is located at the top right of the main content area.
