When all the forms have been successfully completed, the last step will give a summary of all provided information and opportunity to submit for consideration.

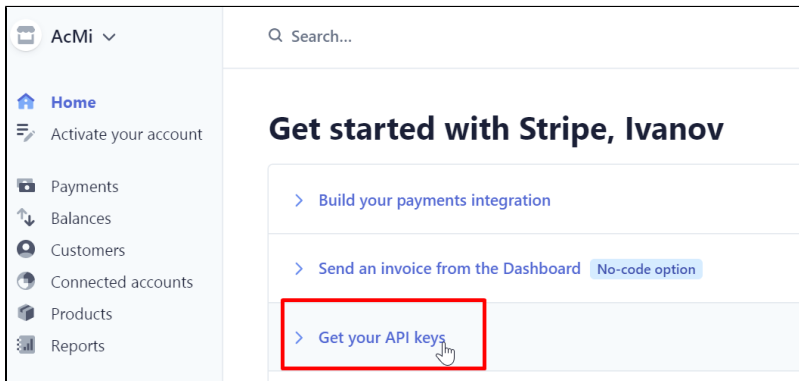

By submitting this form, you agree to the [Stripe Services Agreement](#), to receiving autodialed text messages from Stripe, and you certify that the information provided is complete and correct. Stripe, Inc. is a registered ISO of Wells Fargo Bank, N.A., Concord, CA.

Submit

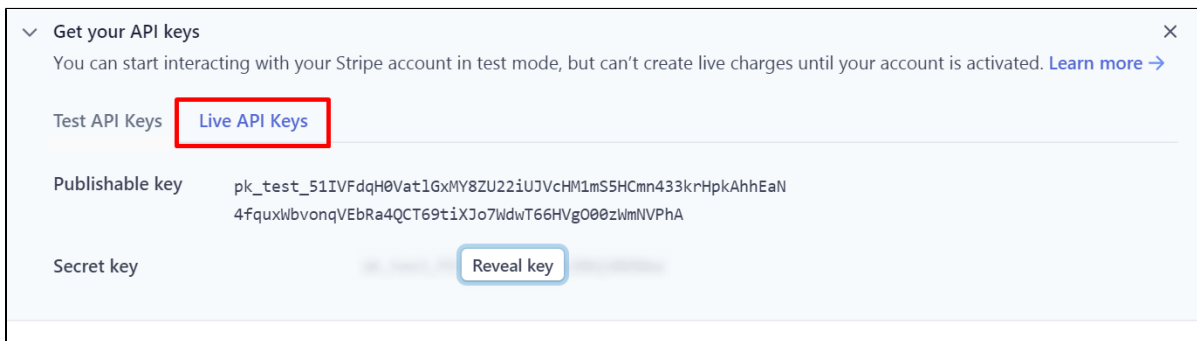

Click "Submit" button and wait for account activation.

Set up an account to interact with OT Box after full activation.

Click "Get your API keys" on the main page of your account.

Select "Live API Keys" tab

You will see 2 keys here: publishable and secret.

Secret key, if you have not received it before, is hidden by "Reveal live key" button

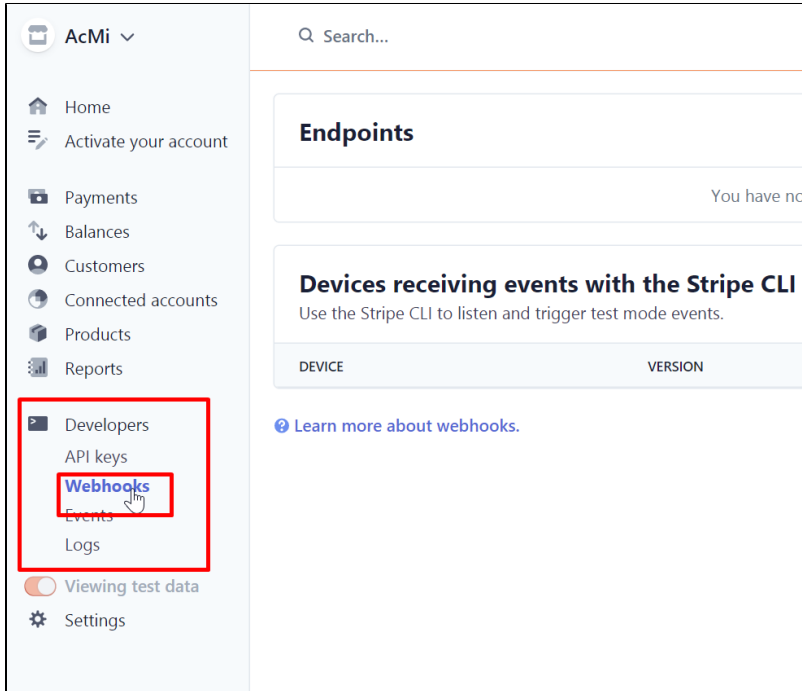

Click the button to get a secret key.

You have 2 keys now: one with prefix *sk_live* (secret) and one *pk_live* (publishable).

Copy both keys to a separate place. Later you will need to specify both keys in the ticket for connecting PS.

Next, go to <https://dashboard.stripe.com/webhooks> (Developers Webhooks tab on the left)

Click "+ Add endpoint" button

Enter address here:

[https://paygate.otapi.net/stripe.callback?internal=\[your website address without http and www\]](https://paygate.otapi.net/stripe.callback?internal=[your website address without http and www]). — Copy the link that you used to create a ticket for connecting PS to OT Box.

For example, a link will be <https://paygate.otapi.net/stripe.callback?internal=top-test.otcommerce.com> if our website URL is <https://top-test.otcommerce.com/>.

Add a webhook endpoint

Endpoint URL

`https://paygate.otapi.net/stripe.callback?internal=top-test.otcommerce.com`

Description

An optional description of what this webhook endpoint is used for.

Events to send

Select events... [Clear](#)

No events selected
Search for events with the dropdown above,
or [receive all events](#).

[Cancel](#) [Add endpoint](#)

Set "Events to send" further. Select *invoice.payment_failed* in drop-down menu (you can copy this phrase and paste to search the list)

Add a webhook endpoint

Endpoint URL

`https://paygate.otapi.net/stripe.callback?internal=top-test.otcommerce.com`

Description

An optional description of what this webhook endpoint is used for.

Events to send

Select events... [Clear](#)

`invoice.payment_failed` [Ctrl+V](#)

Invoice 13 events

`invoice.payment_failed`

[Cancel](#) [Add endpoint](#)

Then select *invoice.payment_succeeded* in the same list (you can also copy the value and paste it into the search bar)

Add a webhook endpoint

Endpoint URL

Description

Events to send

Clear

invoice.payment_succeeded Ctrl+V

Invoice 13 events

invoice.payment_succeeded

As a result, there will be 2 options in the list. Click "Add endpoint" button.

Add a webhook endpoint

Endpoint URL

Description

Events to send

Clear

invoice.payment_succeeded

invoice.payment_failed

Create ticket for connection

Log into [OpenTrade Commerce support system](#) and go to the page to create ticket for service.
