To see the information on the recall, you must select it in the list!

Description

Внимание

Module is available from OT Box version 1.8.3 and higher

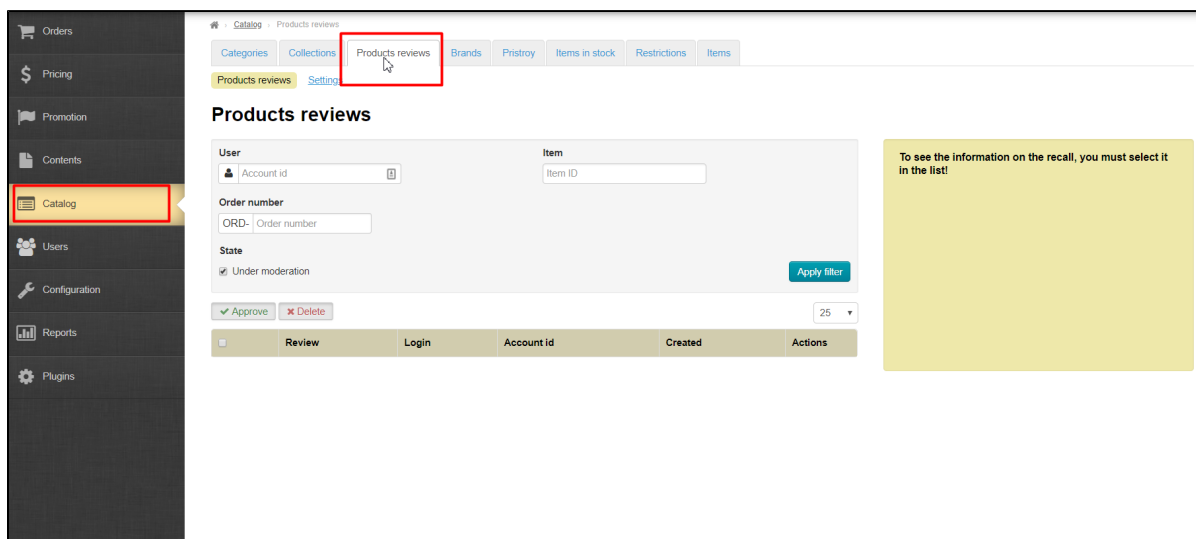

Customers Reviews is a powerful tool for motivating clients to make purchases on your website! However, you need to collect some base of reviews on the most popular products to take advantage of this method of motivating customers.

Customers Reviews Module solves this problem! After all, all products reviews left on owners' websites are combined now combined into one database and displayed on all sites based on OT Box with Customers Reviews Module installed. Therefore, **you will immediately have more than 1000 reviews for goods in total instead of 10-20 reviews**. These are reviews of real customers who bought and checked goods.

Read more about business benefits: ["Customers reviews \(module description\)"](#)

View statistics: number of reviews in database

Module settings section gives information how many reviews are currently collected in a specific OT Box and how many reviews are in total in the database. Open "Catalog" section and go to "Product Reviews" tab:

Click "Settings":

Reviews moderation

All reviews can be moderated, however, only after publication. What does it mean?

This means that your customers will write reviews that all website users could see right after they are written.

Therefore, it is necessary to check reviews for the availability of fresh ones from time to time and delete or approve them, thus marking which reviews you have already seen and decided to leave on the site.

For convenience, you can read full review clicking it with a mouse:

[Ответить](#)

Рубашка села как влитая! На работе все отметили, что я выгляжу профессионально.

Aa** Очень рады, что вам понравился товар.

sh**1a** Да, мой муж тоже в восторге. Да и мне, как женщине, проще, когда рубашку легко гладить, а мой мужчина выглядит с иголочки!

Ваш ответ

Даже на меня размер нашелся. Реально, как влитая!
